*Special Mentions*

- If you plan to loadout Sunday, please make arrangements with the clerk at checkout so that we can assist you in a timely manner.
- Black Hereford Ranch reserves the right to collect DNA on ALL cattle that we sell for cloning purposes.
- Black Hereford Ranch retains the right to partner on two successful flushes on all COC females. We define a successful flush as at least 8 good embryos per flush, to split between buyer and seller.
- 12- to 18-month-old bulls can be used with great success, but we recommend to turn out one cow per bull's month of age for best results. These young bulls are still growing and losing their teeth and may need a little extra care at the end of their first breeding season.
- Black Hereford Ranch retains one-third semen interest and one-third revenue sharing on all bulls and the right to collect DNA for cloning
